

AVAILABLE COLORS

CoolNet™ has been specifically developed as a very strong and durable U.V. protection fabric for use with Shade Systems™ outdoor structures. Our fabrics combine maximum sun protection with strength and durability to ensure maintenance-free exterior performance.

Powder-Coat Colors All steel tubing components are manufactured with a bright and durable polyester powder-coated finish. Standard powder-coat colors are shown below, with many optional custom colors available upon request.

Post Pads Shade Systems protective padding is ideal for cushioning accidental bumps by young and old against our steel posts. Available in a variety of colors to match our standard powder-coat colors and sizes to fit all our structural posts, pads consist of exterior grade foam filler encased in high-gloss easy-to-clean flame-retardant vinyl. All pads are 6' high and fastened to posts with heavy-duty all weather plastic zippers.

Actual fabric and metal colors may vary from representations shown here. Sample fabric swatches and metal color chips are available upon request. For further details please refer to Technical Specifications and Warranty information at: <http://www.shadesystemsinc.com/specs.htm>
