

WHY CHOOSE SHADE SYSTEMS™?

✓ TURN-N-SLIDE™ EASY FASTENING SYSTEM

Our patented **Turn-N-Slide™ Easy Fastening System** is an ingenious mechanism which comes standard on all frame-supported Shade Systems products and makes removal and re-attachment of the canopy quick and easy for most anyone on your staff. And it's covered by a 10 year warranty.

- Makes it easy to remove and re-attach the fabric canopy for the winter season or in case of severe storm such as hurricanes (most other shade companies' products are permanent and require professional installers to remove and re-install the canopy)
- Only patented and time-tested system of its kind — in continuous use nationwide since 2003

WHAT DOES THE COMPETITION OFFER?

Good question. The competition's canopies are mostly designed to be permanent, and require special tools and oftentimes the services of professional installers for removal and especially re-installation. Ask the competition to describe the specific steps required to remove and then re-attach their canopy, and judge for yourself if the same thought has gone into their product as the Turn-N-Slide.

✓ MOST EXTENSIVE 7-STEP POWDER-COATING PROCESS IN THE INDUSTRY FOR CORROSION-RESISTANCE

1. **Sandblasting.** Metal parts are sandblasted to completely remove any surface oils and rust.
2. **Mechanical smoothing.** Any remaining foreign matter is mechanically removed from surfaces by sanding, grinding, and rounding rough edges to smoothness.
3. **Initial Surface Preparation.** A heavy-duty liquid cleaner is applied for initial surface preparation.
4. **Corrosion resistant Coating.** Liquid detergent iron phosphate is applied, resulting in a superior quality corrosion resistant sub-coating.

5. **Final Surface Preparation.** All metal parts are then sealed using a reactive, non-chrome sealer for enhanced corrosion protection and increased paint adhesion.

6. **Coastal Primer.** Prior to powder-coating, a rust inhibiting coastal primer is applied for maximum corrosion resistance in the most demanding outdoor environments.

7. **Application of Powder-Coating.** Lastly, PPG Envirocron™ Ultradurable powder coatings are applied for a durable and uniform final color finish.

✓ EXTENSIVE USE OF STAINLESS STEEL FOR MAXIMUM CORROSION RESISTANCE

- All stainless steel hardware
- All stainless steel cables

✓ 100% U.S. MADE – ALL UNDER ONE ROOF IN OUR FLORIDA FACTORY

✓ MOST COMPREHENSIVE WARRANTIES IN THE INDUSTRY

20 yrs on metal frames against rust-through corrosion

10 yrs on CoolNet™ shade fabric against deterioration

10 yrs on CoolNet™ stitching thread against deterioration

10 yrs on Turn-N-Slide™ Easy Fastening System

10 yrs on stainless steel cables

*** And none of the above warranties are pro-rated! ***
